

Project Management for Development PMD Pro1

Training workshop

Key information

Date	18-22 December, 2017
Course length	5 days
Time	10:00 – 16:00
Location	Gaziantep
Training language	Arabic
Fees	350\$ 1400TL

About course

The PMD Pro1 is the first of the Project Management in Development Professional Certification. Contextualized for the international development sector, PMD Pro1 includes content that provides successful participants with sufficient project management knowledge to work as an informed member of a project team in the sector

The PMD Pro1 qualification is also a pre-requisite for the PMD Pro2 qualification.

Objectives of the course

- As a Project manager, developing concise and unambiguous project objectives (or statements of your project's desired results) increases the chances that you'll successfully accomplish them. Follow these pointers to ensure your project objectives are crystal clear:
- Focus on outcomes rather than activities. (For example, "produce a final, approved report" is preferable to "read and review draft report.")
- Make sure your objectives are SMART (specific, measurable, aggressive, realistic, and time-sensitive).
- Make sure every objective has at least one measure and every measure has at least one performance target. (For example, if the narrative statement of your objective is "to develop a new product," one measure would be "target completion date" and the performance target for that measure would be "August 15, 20__.")
- Understand the context and content of projects in the development sector
- Know the principles, phases and disciplines of project management in the development sector context.
- Use clear language — no technical jargon or acronyms.
- Understand the relationship between principles, phases and disciplines within the development sector context.
- Understand the importance of adapting the PMD Pro to the context of the project.

Course Outcomes

- Understand the context and content of projects in the development sector.
- Know the principles, phases and disciplines of project management in the development sector context.
- Understand the relationship between principles, phases and disciplines within the development sector context.
- Understand the importance of adapting the PMD Pro to the context of the project.

Trainers

Youssef Al-Moustafa

Youssef is co-founder of Trust Consultancy and Development and Director of the organization. Youssef has an MSc in Development from University of London, SOAS and an MA in Economic Change in the Arab region from the University of Marburg, Germany. He has worked for many different humanitarian NGOs and consultancies in Syria and Turkey including CARE, NRC, IBTCI and GOAL. He is a trainer of many M&E related topics including Sphere, Accountability, Humanitarian Principles and International Humanitarian Law, Participatory Data Collection and Analysis, Project Management Development and many others.

Hassan Jenedie

Hassan is co-founder of Trust and head of capacity building. He has a BSc in Pharmacy and is currently reading toward an MA in Designing Strategies and Projects for Humanitarian Action at University of Geneva and the Graduate Institute (IHEID).

He worked as Chief Development Officer (Deputy CEO) for UOSSM where he was responsible for part of the organization's team developing the capacity building department, designing strategy and establishing policy and procedures.

Hassan is a certified trainer in Project Management for the Development Sector (PMD Pro 1&2), The Minimum Standards of The Humanitarian Fieldwork (SPHERE), and Building Better Response (BBR). He also worked as a trainer for an ISHA Program, part of the Investing in Syrian Humanitarian Action learning program for disasterready.org.

Hassan has also acted as project manager for more than 47 projects in different humanitarian fields, and worked as an independent consultant for a project in Syria Relief funded by Save the Children / Turkey (DFID project).

Mahmoud Jammoul

Mahmoud is an expert Relief, Monitoring & Evaluation, and Programs Manager. He has extensive experience with local and international NGOs across the Middle East. As Programs Manager at Trust Consultancy & Development, Mahmoud oversees the coordination and administration of all aspects related to ongoing program activities including planning, organisation, and leading staff. Prior to Trust his professional experience includes working as a Monitoring and Evaluation manager for SEMA in Turkey where he was responsible for the development and maintenance of all Monitoring and Evaluation planning and tools, as well as conducting data analysis. Mahmoud has also supported health facilities in Syria since the beginning of the conflict, through his work as a reporting officer, M&E officer, and project manager. He has experience identifying gaps in capacity and defining and implementing new medical standards and guidelines in conflict contexts and for patients with varying medical histories. Mahmoud previously practiced as a dentist for many years.
